

Terms 5 and 6 2024

Beastly War

The two terms ahead will be extremely busy for Year 6, who will be, amongst other things, rehearsing for their end of year production – Oliver. We are very excited about this and can't wait to perform it to you all in July. In English, we will be using short stories, film clips and animations for writing inspiration. For Maths, whilst we will be revising some concepts, we will also introduce the children to some additional aspects of geometry, statistics and algebra, preparing them well for secondary school. Our topic work will be centred around The Battle of Britain during World War II; we will also look at how the war began, following on from World War 1. Linked to this, our DT will be 'Make do and Mend.' The children will be learning about classification, light and Evolution and Inheritance in Science. As part of RSE, our discussions will centre around healthy relationships, love and loss, followed by learning about puberty and our informative growing up talks. Finally, we have our residential to look forward to before saying goodbye to our lovey year group.
