

Community Membership to Creative Educations online training platform – for parents and carers

Our platform enables you as parents and carers to research and explore topics immediately by having a trusted source of information available to you, just by logging in. Training is flexible and you can complete whole courses in one sitting, one module at a time or by spending just 5 minutes, whatever time you have available. If you start a course and leave it, when you log back in, it takes you to the same moment in time as when you left and is flexible and easy to navigate.

There are three main areas of training, split up as follows:

- 1) **On-Demand short courses** – modular based, pre-recorded training courses ranging in duration between 10-60 minutes long

Help Anxious Children Feel Calm & in Control

When faced with a child who is worried or anxious, it can be hard to know how best to help and sometimes in trying to help, we end up making things worse. In this course, Pooky helps you to understand the cycle of anxiety and the simple steps you can take to help your child feel like together you are taking control of their anxiety rather than letting their anxiety control them. The course has been developed and delivered by Dr Pooky Knightsmith and is aimed at parents and carers and other champions of children aged ten and under, though you may find the ideas are more widely applicable. The development of this course has been supported by Resilient Rutland who are funded by the National Lottery Community fund.

Background Information:

Creative Education as a company has over 30 years' experience in providing Training courses for Primary and Secondary schools, FE Colleges and other Training Providers & commercial companies. Our guiding principle is that training should be evidence-based, engaging and, above all, highly practical. So, we've combined our highly skilled practitioners with the 21st century approach to training to provide online training that you will want to use, time after time.

Our courses have been written and researched by people who have years of experience and practice and who are experts in their field. We are constantly updating our courses to ensure that they are relevant to the current issues in education and for those who work with or support children, providing training that will eventually cover every topic that someone working in a school, college, health or social care setting would need to know. We currently have over 360 courses/webinars within our library, and this is continually growing.

We have a team of highly skilled, specialist Mental Health Advisors, Safeguarding and Children Well Being Practitioners, and Education Writers and Advisors.

For example, Dr Pooky Knightsmith

Pooky has a PhD in child mental health from the Institute of Psychiatry, King's College London. She is the author of several books and is a former chair of the Children and Young People's Mental Health Coalition. Pooky is also Autistic and thus has an additional perspective & personal experience to add when delivering her courses on and around this subject.

How to gain access to the Creative Education training platform:

All you need to do is use the following URL Link and register yourself to gain immediate access to the training resources available under our Community Membership offering:

<https://www.creativeeducation.co.uk/add-yourself-to-your-school-or-colleges-membership/?ca=11503683f0398fb6753316f87c7a66db>

I recommend completing our 'Welcome to Your Membership!' course first. This is only 5 minutes long and shows you around our site and explains how to navigate your membership and access the training resources available. You can follow this link to this course: <https://www.creativeeducation.co.uk/courses/welcome-to-your-membership/>

I have highlighted below a few courses and webinars that you might like to look at, to get you started:

OnDemand Courses
